AMERICAN PSYCHOLOGICAL ASSOCIATION

Which side are you on, anyway?

Well, okay. We know it's not *that* simple. Current research in neuropsychology yields an understanding of left-brain/right-brain dominance that is more complex and subtle, compared to earlier investigations or popular conceptions. But one thing hasn't changed. The place to find the latest research on this topic is the PsycINFO® family of information products from the American Psychological Association, whether you prefer online services, the Web, CD-ROM, or print. And that also goes for the thousands of other subjects covered in APA's PsycINFO, PsycLIT,® and ClinPSYC® databases and the print *Psychological Abstracts*,® including psychological aspects of such diverse fields as artificial intelligence, health care, management, advertising, education, criminal justice, arts and humanities, and many others. So give *both* sides of your brain the psychological information they need. Trust PsycINFO products for your research.
